

QUALITY POLICY

It is the policy of voestalpine High Performance Metals UK Ltd to provide alloy, steel, and nickel alloy products in various forms to meet customer quality and delivery requirements.

To this end the company will maintain an integrated management system complying with the requirements of the ISO9001:2015 and AS9120 REV B and is committed to satisfying applicable requirements (customer and legislative) as well as the continual improvement of the management systems and practices.

Detailed quality objectives will be established and reviewed at management review meetings.

This policy will be communicated to all company personnel and will be regularly reviewed at management review for its continuing suitability.

If relevant, impacts and aspects on climate change will be evaluated in our planning activities.
