

CERTIFICATE

RECYCLED CONTENT CLAIM VERIFICATION

For the period 01.01.2023 – 31.12.2023 DEKRA Assurance Services as an independent partner confirms the verification of the recycled content claim of

voestalpine Stahl GmbH

voestalpine-Straße 3

4020 Linz, Austria

for the Steel Slab and Casting Production in accordance with ISO 14021.

It can be confirmed that the recycled content in steel slab and casting production at the Linz production site in 2023 is on average 25% (24,3% pre-consumer scrap, 0,7% post-consumer scrap)

The following subjects were verified by DEKRA Assurance Services GmbH:

- Recycled content claim description
- Calculation methodology
- Calculations for above mentioned period
- Supporting evidence for the calculation

Further details can be found in the verification report ("Report 120320016") dated 25.09.2024 which provides a detailed overview on goal and scope, process, assessment and result of the verification.

The recycled content claim verification is subject to periodic surveillance and only valid for the above-mentioned period.
