

Linz, April 2024

**CO<sub>2</sub>-Intensity according to EN 19694-2**

Dear partner of voestalpine,

as Responsible steel certified site we are pleased to provide environmental arguments in terms of GHG-emission:

**CO<sub>2</sub>-Intensity in line with EN 19694-2**

---

Steel slab	1,60*
------------	-------

---

\*CY 2023

Underlying calculation-methodology is in accordance with the standards EN 19694-1 and EN 19694-2. The data used is of high quality, the results are plausible and the corresponding information and calculation is transparent and complete. This opinion is stated in the declaration of conformity by a third party (Nov, 2023).
